

Sellenis removable nozzle
for use with Videojet® 1000 series

Sellenis removable nozzle
for use with Videojet® 1000 series CIJ printers
Quick and easy to remove, clean and replace

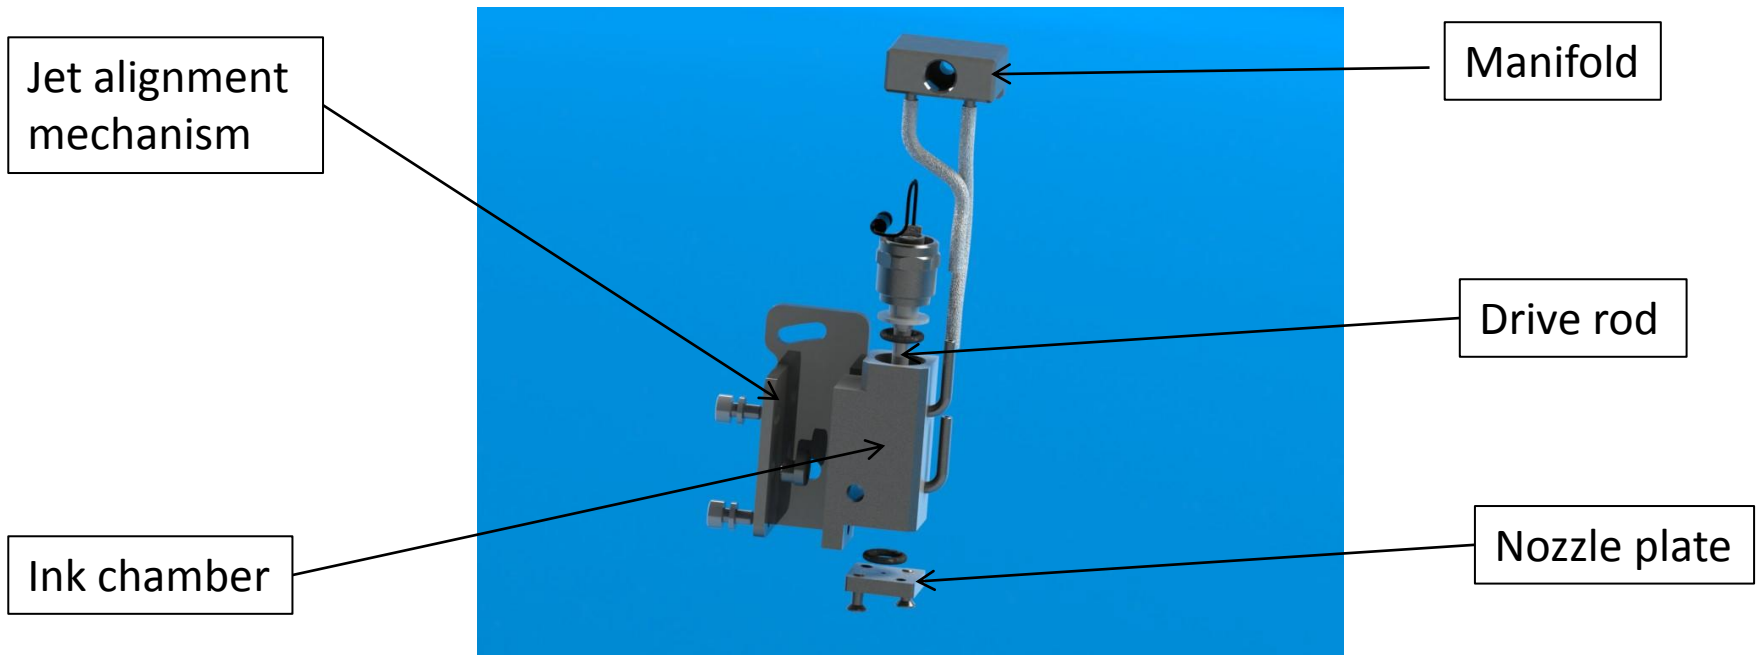

Sellenis removable nozzle **for use with Videojet® 1000 series**

- Robust all Stainless steel construction gives the nozzle the ability to survive the harshest environments and physical treatment.
- The Sellenis stainless steel removable nozzle for use with Videojet 1000 series printers simply retro fits to existing printhead module, supply tubing and signal wires.
- We provide simple, easy, short instructions to allow you to easily and quickly remove the existing nozzle from the printhead module, replace it with Sellenis removable nozzle and re-adjust the jet so the printer is back running and printing within few minutes.

Sellenis removable nozzle for use with Videojet® 1000 series

- Because this design is based on the well tried and trusted resonator/drive rod system (used by several main ink jet OEM's), the performance of the whole assembly is not sensitive to its fixing point to the printhead module.
- Therefore, it provides a very stable jet break up with a wide operating modulation voltage window. This, in turn, makes the whole printer perform more reliably over a wide operating temperature range with a variety of inks.
- Calibration across all inks is an identical set up procedure to the existing nozzle type. With the capability of removing the nozzle plate internal cleaning could not be quicker, simpler and more reliable.

Continuous Ink Jet (CIJ) Nozzles

Nozzle Orifice Design Specifications

Sellenis removable nozzle for use with Videojet® 1000 series

	Description	Sellenis Part Number	Equivalent to OEM Part number	Use with	Price in GBP
	VJ 1000 Series Detachable Nozzle plate drop generator 60 µm	SL601.0241	100% back-compatible with Videojet®1000 line printers	Use with all Videojet®1000 line printers (1220, 1520, 1610, 1620, 1710)	Price on request
	VJ 1000 Series Detachable Nozzle plate drop generator 70 µm	SL601.0242	100% back-compatible with Videojet®1000 line printers	Use with all Videojet®1000 line printers (1220, 1520, 1610, 1620, 1710)	Price on request
	VJ 1000 Series Detachable Nozzle plate drop generator 50 µm	SL601.0279	100% back-compatible with Videojet®1000 line printers	Use with all Videojet®1620UHS and 1650UHS	Price on request

Sellenis removable nozzle for use with Videojet® 1000 series

	Description	Sellenis Part Number	Equivalent to OEM Part number	Use with	Price in GBP
	VJ 1000 Series Detachable Nozzle plate 70 µm	SL601.0245	100% back-compatible with Videojet®1000 line printers	Use with all Videojet®1000 line printers (1220, 1520, 1610, 1620, 1710)	Price on request
	VJ 1000 Series Detachable Nozzle plate 60 µm	SL601.0244	100% back-compatible with Videojet®1000 line printers	Use with all Videojet®1000 line printers (1220, 1520, 1610, 1620, 1710)	Price on request
	VJ 1000 Series Detachable Nozzle plate 50 µm	SL601.0280	100% back-compatible with Videojet®1620UHS & 1650UHS	Use with all Videojet®1620UHS and 1650UHS	Price on request
